

We Invite You to Become a CEA Member

On behalf of the California Energy Alliance, we thank you for your interest in our organization.

Since its inception in 2016, the Alliance has established itself as a committed, credible force in pursuit of its mission—to bring beneficial, equitable change to energy standards, policies and programs by developing consensus among diverse and engaged stakeholders. The Alliance actively participates in the development and implementation of pragmatic, environmentally and economically sound building energy standards and other initiatives.

- Our purpose is to unite stakeholders from a broad range of organizations dedicated to clean energy progress in and around the built environment.
- Our goal is to actively participate in the development and implementation of pragmatic, environmentally and economically sound energy policies, regulations, and initiatives that lead to the realization of a sustainable California.

To become a CEA member, first complete the membership application included in this document and email it to inquiries@caenergyalliance.org. The CEA Board of Directors will review your application and hold a vote regarding your membership. Once the Board has made a determination, usually within 10 days, you will be notified of your membership status. If approved, and upon payment of membership dues, you will receive access to CEA Member Resources on our website, invitation to CEA meetings, and other benefits commensurate with your membership level.

Our members are our most valuable asset. Only through our members' diverse, collective expertise can CEA truly fulfill its mission. We recognize, however, that membership may not be a feasible participation pathway for all organizations. We welcome organizations to serve as sponsors and patrons by underwriting specific programs, events, initiatives, and special projects that align with CEA goals and activities. For more information on these opportunities or to propose a collaboration, please contact Josh Dean at josh.dean@caenergyalliance.org or refer to the membership section of our website.

Membership dues are tax-deductible to the extent provided by law and are assessed on an annual basis. Members joining mid-year, will be assessed a prorated amount based on the number of quarters remaining in the calendar year. Membership renewal packages are sent out in November.

We look forward to your support in continuing our important work as California's energy stakeholder advocate.

Dion Abril
President & Board Chair

Josh Dean
Executive Director

Membership Application

Please provide us with information on your organization and the individuals who will be involved with CEA. Email the completed form to Josh Dean at josh.dean@caenergyalliance.org. The CEA Board of Directors will then review your membership application and we will notify you regarding the Board's decision within 10 days.
